

DAVID A. GRANT

*TRAUMATIC BRAIN INJURY SURVIVOR,
KEYNOTE & INSPIRATIONAL SPEAKER*

Spanning over thirty years, my relationship with heartfelt communication has evolved as much as I have. I have a passion for wrapping my unique life experience as a true survivor around a wide range of topics in a way that will make you think, come away deeply inspired and perhaps change your life.

Conference Attendees Share...

"Excellent engagement with the audience!"

"He touched my heart. He was great."

"Powerful & Personal!" "Very touching – gave me a completely different view on what an individual with an TBI goes through. A text book can only teach you so much. Thank you for this presentation. It was a gift."

My advocacy work for those impacted by brain injury includes the founding of one of the world's largest online TBI support communities, developing a magazine publication to serve those impacted by brain injury as well as conference and other speaking engagements to help people better understand brain injury from an insider's perspective.
